## **Mr. Dieter Van den Heuvel**

Imec, Belgium

Dieter Van den Heuvel has been in imec since 2001. He is currently working as a researcher in the Advanced Patterning Metrology group, with a main expertise in defect inspection and review. In the past he was involved in the development of 157nm dry and 193nm immersion lithography. In recent years his focus was on EUV defectivity, both on wafer and on mask.
